

## PHOTOGRAPHIC BACKDROP STANDS:

Lightweight telescoping stands with crossbars can hold rolls of seamless background paper, painted backdrops, or curtains. May also be used for portable video "keying" backdrops for location interviews. Curtains are available separately. Stands are made in USA.

### DL/BG-3CB STAND SET:

Deluxe set includes two stands with heavy duty, braced tripod bases, and three telescoping 3-section crossbars. Silver colored aluminum construction. Included in the set are two pair of #BG-A clamps which permit locating two of the crossbars at any location on the 7/8" diameter upper vertical poles. Safe-lock clutch collars on each stand allow infinite adjustment of the height, and provide secure locking. Height is adjustable from 54" to 98". Width is adjustable from 56" to 151". Weight of set is 15 lbs.

### DL/BG-1CB Stand Set:

Same as above, except includes two stands and only one crossbar. Additional crossbars may be added later. Weight is 11 lbs.

### BGS STAND SET:

Economy stand set includes two stands with tripod bases and one telescoping 2-section aluminum crossbar. Stands constructed of chrome finish, square steel tubing uprights, and black finish steel legs. Push-button lock on each stand holds uprights at preset heights. Height is adjustable from 51" to 100". Width is adjustable from 63" to 116". Weight of set is 12 pounds.

### Telescopic upright poles:

Have an automatically locking clutch collar which permits adjusting the height of the upright to any position within the height range of the upright. Lift the top pole to raise - lift the locking ring to lower the pole. Upright poles are fabricated from heavy duty anodized aluminum tubing, with a 2" dia. for the bottom section. Uprights have 4 vertical slots at top to attach drape poles, and uprights 6' and higher have another set of 4 slots at 3' height for railings. Poles slip over a steel pin attached to flat steel bases. Two section uprights are available 3' to 26' in height. Three section uprights are available 5' to 23' in height.

- TS0058 Telescopic upright, two section, 5' to 8'.....
- TS0610 Telescopic upright, two section, 6' to 10'.....
- TS0712 Telescopic upright, two section, 7' to 12'.....
- TS0814 Telescopic upright, two section, 8' to 14'.....
- TS0916 Telescopic upright two, section, 9' to 16'.....

### Standard non-adjustable uprights:

Are single sections of anodized aluminum tubing at specific lengths of 3', 6', 8', 10' or 12' height for 1-1/2" dia. poles and 3', 6', or 8' for 2" dia. poles. 3' uprights are used to support drape poles at railing height and include chrome cap at top. Custom lengths can be fabricated on request

- SU0315 Standard upright, 1-1/2" dia., 3' high.....
- SU0815 Standard upright, 1-1/2" dia., 8' high.....
- SU0815-2 Special compact upright, 1-1/2" dia., 8' high has 2 sections that join together. Max. section length is 51" for compact storage and economical shipping.....
- SU0320 Standard upright, 2" dia., 3' high.....
- SU0820 Standard upright, 2" dia., 8' high.....

Adjustable telescopic upright with clutch collar. Height is continuously adjustable.

Low profile base with pin for upright pole. 18" x 18" base shown with 3 pin locations.

**Black anodized finish is available for all poles and bases at additional cost.**

### Flat Bases:

Low profile flat bases are fabricated from zinc plated steel. The base includes a steel pin that fits into the bottom of the upright poles. The pin attaches to the base with a flat head bolt from the bottom, and can be positioned in several locations on the base. The base is shipped without the pin attached. **Specify 1-1/2" dia. or 2" dia. pin to match the upright pole.** Bases 8"x 14" and 14" x 16" include 2 holes for pin and stacking slot. Bases 18" x 18" and 24" x 24" include 3 holes for pin.

Cat #	Size	Thick	weight	Use with upright	Standard Pin	Price
B0814	8" x 14"	3/16"	6 lbs	3'	1-1/2" x 4"	
B1416	14" x 16"	3/16"	12 lbs	8'	1-1/2" x 4"	
B1818	18" x 18"	3/16"	17.5 lbs	up to 12'	2" x 4"	
B181838	18" x 18"	3/8"	35 lbs	up to 16'	2" x 6"	
B2424	24" x 24"	3/16"	31 lbs	up to 18'	2" x 8"	
B242438	24" x 24"	3/8"	62 lbs	up to 24'	2" x 8"	

Older style threaded bases and upright poles are available, as well as adapter pins to convert older bases with threaded hole to newer uprights.

### Need more weight?

Sand bags are an easy way to increase stability of the tall upright poles or in situations where the curtains are subjected to wind. Our Velcro (fly-a-way) style sandbags are shipped empty so you avoid paying to ship heavy sand. Sand is cheaper than steel bases. You purchase dry playsand at a local store, fill the bags yourself, and press the velcro flaps closed. No sewing is necessary. The Velcro style bag can hold up to 30 lbs of sand (15 lbs. each side)..

- SBC-VEL Saddlebag style sand bag with two Velcro strip closures. Sold empty.....

Saddlebag sand bag filled

**We have filled sandbags in a range of styles and weights on our [sandbag family catalog page.](#)**

### Telescopic drape poles:

Are fabricated of clear anodized aluminum tubing with a ridge to keep inner and outer poles aligned. Outer poles are 1.54" dia. Steel hooks at each end fit into slots on upright poles. Locking button stops poles at specific distances.

- TDS0081 Special 3 piece drape pole for compact storage (only 49") and shipping. Has button stops for 8' or 10' length when assembled.

**Black anodized finish is available for all poles and bases at additional cost.**

### Curved drape pole:

Two curved sections and a central joiner piece form an arc curve 10' wide and 2' deep. Requires 3 uprights and bases. Length is not adjustable. Central joiner can be installed so its support pole is inside or outside of circle. Four sets can be joined together to make a complete circle 14'-6" in dia. May also be used with additional curved pole sets or straight poles to create different shapes.

Curved drape pole with 3 uprights and bases

Curved drape pole with curtains installed

- 301010 Curved drape pole, set of 3 pieces (uprights and bases not incl.)

Plan view of curved drape pole

Curved drape pole disassembled

### Column Cover Drape Pole:

Two semi-circular sections form a complete circle to fit around structural columns or other objects. Clear anodized tubing is 1-3/8" dia. Requires 4 uprights and bases. The two uprights that support the center of each half are inside the circle, so drape can continue past the poles. Can be combined with straight drape poles to form oval or other layouts. Other uses might be a kissing booth, hide obscene sculptures, a small dressing cabana, or, well, whatever suits your fancy.

Column cover with drapes

Column Cover with 4 uprights and bases

- 301033 Column cover 3' dia. , set of 2 pieces (uprights and bases not incl.).
- 301034 Column cover 4' dia. , set of 2 pieces (uprights and bases not incl.).
- 401035 Column cover 5' dia. , set of 2 pieces (uprights and bases not incl.).

### Adjustable Crossbar Clamp:

Plated steel clamp fits around upright pole to permit attaching a drape pole at any height. Clamp has wing-nut and bolt to tighten and rubber pads to prevent slippage and tube damage. Two sizes to fit poles from 1-1/2" to 2" dia. Could be installed upside down to tension drape pole in bottom pocket of drapes. 30 lbs max load. Sold individually. Two required for each drape pole.

Adjustable Crossbar Clamp

Upright with 2 clamps installed

- 110098 Adjustable crossbar clamp fits all 2 piece uprights, 2" dia uprights, or bottom and mid-section pole of 3 piece uprights.....
- 110099 Adjustable crossbar clamp fits all 1-1/2" dia uprights, or 1-5/8" dia. top pole of 3 piece uprights .....

**Used in combination with other drapery poles, you can create backdrops with sections at different heights, or even doorway openings**
