## MICRO-PAR & Micro-Flood:

Compact spot and flood lights are excellent for accent lighting of video sets, displays, convention exhibits, floral arrangements, club lighting, and small theatres. Available for use with 120 vac or 277 vac (on request). Choice of three colors for the housing: BK = black, WT = White, SL = silver. Specify color* when ordering. Custom colors available on request.

## MICRO-FLOOD:

Compact spotlight with extruded aluminum body. Flood in name only, the size of light beam is determined by choice of 12 volt MR16 lamp. Mounted on the yoke is a dimmable 75 watt capacity electronic step-down transformer. Includes 6' cord with molded Edison plug, color frame, and safety cable. Weight 4 lbs. Altman brand. UL, CUL, and CE listed.
