A-PAR64

ABOUT PAR FIXTURES:

This type of spotlight uses sealed beam lamps to produce intense beams of light. The advantage of PAR spots is their low cost and light weight compared to spots which use separate reflectors, lenses, and lamps. Their disadvantage is that the size and shape of the beam is determined by the choice of lamp. To change the beam, you must change the lamp.

PAR LAMPS are a combination reflector, lens, and lamp in a single glass housing. The lamps are available in different sizes and wattages. The two digit number after the PAR (as in PAR64) refers to the size (diameter of the lamp in eighths of an inch). The larger the number, the larger the size and wattage of the lamp. PAR lamps produce an oval or round shaped beam of light. Barn doors and top hats (snoots) may be used to control spill light and partially shutter off portions of the light beam.

ALTMAN brand PAR fixtures are made in the USA and are all U.L. listed theatrical fixtures. Their color frame holders accept standard theatrical size color frames, barndoors, and snoots.

PAR 38 SPOT:

Inexpensive, compact spot for small stages, clubs, and bands. Black sheet steel housing. Use standard R40, BR40, or PAR38 reflector lamps up to 300 watts. When equipped with Q250PAR38 lamps, these fixtures produce almost as much light as a 500 watt Fresnel spot. Equipped with heavy duty ceramic medium screw base lamp socket, 7 1/2" x 7 1/2" color frame, safety cable, and 3' hi-temp cord. Plug and clamp are optional.

PAR 56 SPOT:

Mid-size PAR fixture for medium stages, display, and bands has black sheet steel housing. Uses 500 watt quartz PAR56 lamps (or older 300 watt incandescent lamps). Equipped with mogul end prong lamp socket, 7 1/2" x 7 1/2" color frame, safety cable, wire mesh safety screen, and 3' hi-temp cord. Plug and clamp are optional.

PAR 64 SPOT:

Full size PAR fixture for stages, display, and bands has black sheet steel housing. Uses 1000 watt quartz PAR64 lamps (or older 500 watt incandescent lamps). Equipped with mogul end prong lamp socket, 10" x 10" color frame, safety cable, wire mesh safety screen, and 3' hi-temp cord. Plug and clamp are optional. Also available in polished or black finish aluminum.

Catalog No.	Description	Price
A-PAR38	PAR 38, black steel housing	\$ 79.20
A-PAR56	PAR 56, black steel housing	\$ 83.20
