

### Outdoor-PAR64:

This fixture is designed for portable or permanent outdoor installations in wet applications for use with up to 1000 watt PAR64 sealed beam lamps. Cast aluminum housing with a stainless steel lens holder has gaskets to insure a water-tight seal. On the rear is an aluminum handle to aid in focusing. Wiring leads are 24' long of sunlight resistant, waterproof high-temp cable (no plug). Includes mogul end prong lamp socket inside and a 36" safety cable. Optional snoot/color frame holder is available in 8" or 1" length (for use with wide lamps) to control spill light, and to hold an included 10" x 10" color frame or other accessory. UL and cUL listed for 1000 watts and IP65 for wet locations. Not suitable for underwater use. Available in custom colors for architectural use.

Oct 1 2019 Outdoor-PAR64 is discontinued, but accessories are still available \$ Disc.
