Spectra Par Outdoor 100 Watt LED Wash:

The rugged die-cast aluminum housing of the Spectra Par with a 100 watt LED light source. Rated IP65 for use outdoors or indoors. Silent convection cooling. Choice of 4 LED light sources: RGBA (red, green, blue, amber), RGBW (red, green, blue, white), 3000K white, or 3000K to 6000K adjustable white. Available as pipe mount or for use with the Altman Smart Track. The fixture can be quickly changed from a spot to medium to flood by inserting one of the 4 included glass lenses for a light beam from a very narrow 6° to an oval wide flood of 18° x 41°. Optional very wide flood lens produces a beam of 56° by 56°. Low friction, hi-temp lens holder with plastic handles can fully rotate the lens to adjust the light beam. The front accessory holder has 2 slots to handle a color frame and a barn door, and a self-closing, locking retaining latch for safety. Standard color is black. For white or silver, replace -B at end of catalog number with -WH=White or -SL=silver

DMX-512 control in/thru using Neutrik X-HD IP65 rated 5-pin XLR connectors on 6' pigtails, so fixtures can be daisy chained up to 12' apart with out any additional DMX cables. RDM compliant. Rear control panel with multiple on-board control options of dimming. Internal power supply is self-adjusting for 100 V to 240 V 50/60 Hz.. ETL, cETL, and CE listed for indoor use. Altman brand.

Fixtures include safety cable, a 6' black power input cable bare end (no plug), and 6' DMX in/thru control cables. Power can not be daisy chained. Fixture housing is standard black. For optional white or silver color housing, change -B at end of catalog number to -W for white, or -S for silver when ordering. White fixtures are shipped with white power cable.
