

## Videssence Little VID LED Studio Fresnel Lights:

Fresnel lens LED lights for studio and location video lighting provide the single shadow characteristics essential to Fresnel fixtures while using a fraction of the power of tungsten lamp units. Flicker free dimming without color shift and amazing 96+ CRI (color rendition index). Single led chip light source provides a concentrated bright beam with even coverage of 3200K color temp light (5600K optional). Choice of on board dimming control with knob or DMX control power packs. Power input is 120 thru 230 volts 50/60 Hz. When dimmed to zero, power is shut off to the driver and LED so no external relay or power cutoff is required. Fixtures have cCSAus rating for USA/Canada. Provided with an aluminum mounting yoke sized so fixture can rotate vertically thru the yoke. Includes C-clamp or 5/8" stand adapter (specify one).

### LV050 Little Vid models:

Compact 50 watt LED Fresnel lens fixtures are small, light weight, and easy to handle or mount in tight spaces. A fixed focus model has 4 permanently attached barndoors to control light spill and includes 2 magnet holders for a gel. The focusable model has a slide focus knob at the top to adjust beam spread, and clips to install gel frame (included) and/or barndoors (optional). Fixture has passive thermal cooling with no fans. Remote power supply allows easy programming for dimming or DMX control. Power supply has hard wired 12' cord to connect to fixture, and a separate 16' AC power supply cord with a NEMA5-15 3 prong plug. Specify C-clamp or 5/8" stand adapter. C-clamp version has power supply mounted on fixture yoke. Stand mount version has detached remote power supply. Models with on board dimming are also available with power supply that can be used with V-mount or Gold-mount battery packs. Prices on request.

## Videssence Facelite:

Powerful 10 watt, high color rendering LED niche light. Designed to boost the vertical light levels on face and features to separate a person from the ambient lighting. Led light source is 3000K (optional 4000K) with 85+ CRI and is rated 50,000 hour life. Fixture size is 13" x 2.5" x 1" and has a frosted plastic spread lens. Wall adapter power supply has a 5' power cord (24 vdc) to connect to the light fixture and plugs into a standard 3 prong 120 VAC receptacle. Silent operation. Available non-dim or with in-line rotary knob dimmer. Bracket mounted version has pair of mounting brackets that allow tilting the angle of the Facelite and may be secured to a surface with screws (not included). Vertical stand mount has a 4" dia. weighted base with adjustable height that places the center of the Facelite approx. 14.5" to 20.5" above the surface.

FL010-30K	LED Facelite with brackets, 3000K, non-dim.....	\$ 215.00
FL010-30K-DC	LED Facelite with brackets, 3000K, in-line dimmer.....	\$ 250.00
FL010-S-30K	LED Facelite with stand, 3000K, non-dim.....	\$ 250.00
FL010-S-30K	LED Facelite with stand, 3000K, in-line dimmer.....	\$ 285.00

Facelites on stand and brackets

Facelite is available with wall adapter power supply that has plug configuration for use in Europe 230 vac 50/60 Hz. Price on request. Prices for 4000K versions on request.

## Videssence VIDFILL Series:

Powerful, high color rendering LED soft light fixtures provide a smooth wash of soft, even, shadow-less fill light. Indirect optical design and internal diffusing lens shields the talent from glaring LEDs resulting in comfortable, cool fill lighting for use in video or film studios. Available with 3200K or optional 5600K LED source that has 50,000 hour rated life. Flicker-free dimming without color shift and amazing color rendering at 96+ CRI. Passive thermal cooling for silent operation without any cooling fans. Controls at the back allow easy programming for DMX control and dimming. Power is shut off to the driver and LED when dimmed to zero with DMX, so no external relay or power cut off is required. Includes 16' AC power cord, in and out powerCon locking connectors, and on/off switch. Gel frame is included with fixture. Available with extruded aluminum C-clamp or 5/8" stand adapter. Specify when ordering.

## ViewMe LED Light Kits for Video Chat:

Portable lights for personal image broadcasting via web cam. These LED lights produce soft, comfortable, and non-glaring totally indirect lighting. Set these up on or next to your monitor to boost the vertical light levels on your face and features to separate you from the ambient lighting. The LED source is 3.4 watts with 3000K color 85 CRI and has a rated life of 50,000 hours. Lights are non-dim. Boxed in a heavy 200# corrugated cardboard container with formed foam insert to protect the components. Lights to mount on monitor have a "Z" bracket and self-adhesive Velcro tape to attach bracket to monitor case. Stand mount Kit has 2 lights with 4" dia. base adjustable height stands. Kits with 2 lights include a jumper cable to go between the two lights and a single power supply. Not sure if you want brackets or stands? A kit is available with both mounting methods. Power supply works with 120 to 230 volt ac and plugs into a standard 3 pin wall receptacle. Also available on request with 2 prong 230 vac European plug for international use. Monitor is not included in kit - that's up to you.
